The Association of Union Constructors

Who We Are:
The Association of Union Constructors is the premier national trade association representing the 21st century union construction industry. TAUC evolved from the National Erectors Association, which was founded in 1969. Over the years, our membership has grown to include all types of union contractor firms, and in 2007 the name and structure was changed to The Association of Union Constructors.

The TAUC Advantage:
• Each quarterly issue targets more than 9,000 owners and developers, union contractors, local union contractor trade associations and industry vendors and suppliers.
• Nine out of 10 readers are CEOs or project managers with purchasing power.
• Partner with TAUC, and with our media program we can help you build visibility within the industry and increase brand awareness.

Member Profile:
Our members perform construction and industrial maintenance every day throughout the United States. TAUC consists of more than 2,000 union contractors — many of whom are recognized worldwide as the top-ranked revenue-generating contractor firms — as well as local union contractor associations and vendors in the industrial maintenance and construction field.

Readers include:
Owners • Presidents • Senior Executives • Construction and Maintenance Executives • Labor Relations Experts • Safety Experts • Business Development Executives • Local Union Business Representatives • Agents • Managers • Local and State Building Trades Leaders • Industry Association Executives
